

Why Choose *Home Care?*

For someone who needs special care, there really is no place like home!

With home care, you don't have to choose between quality health services and the comforts of home. Your loved one can have the best of both worlds.

Home health care is much more affordable than hospitals and nursing homes. Statistics show that a home care visit costs hundreds of times less than a hospital stay and up to 50 times less than a full day of nursing home care.

As you can see, home care makes sense... for the patient *and* the caregiver.

Why choose *HANCI*?

HANCI – the Health Association of Niagara County, Inc. – has been serving our community since 1927. Now you and your family can become part of HANCI'S tradition of quality care.

HANCI's licensed home care program allows people to remain living in their homes while they receive necessary medical care. HANCI Home Care serves all ages, from infants to the elderly, and those recovering from surgery. The program offers personal care as well as home management services to help clients keep their homes clean and safe.

Your HANCI nurse will be the link between your family, your physician and the carefully trained staff assigned to your case. Your nurse will develop a personalized care plan just for you. The nurse will then work closely with your aide to make sure every detail of this plan is followed with care and compassion.

HANCI offers many other services too, from Adult Day Services to senior volunteer and advocacy programs. When you become part of our family, we will always be looking for other programs and services that could benefit you!
